

# MARIE-LOUISE CERVANTES

## ***About the artist***

Marie-Louise Cervantes lives and works in Marseille. She is a painter specialised in Sacred resonance paintings made through channelling (spiritual guidance). These paintings bring universal energies that are expressed in and act through the paintings. We hereby present a selection.

Always through channelling, she creates on order the "Soul paintings", which are the mirror of a person's essence, the "Soul paintings of your home", for the stabilization and protection of your living place, as well as custom logos that help you access your full potential in your professional life.

She also holds intuitive painting workshops.
